

Saint Rita School – Summer Math
Students entering 7th and 8th grades
2021-2022 School Year

There will not be a requirement for summer math for students entering 7th and 8th grades this year. However, there are plenty of opportunities and resources available for students to continue to develop their math skills. Here are a handful of choices.

Khan Academy

<https://www.khanacademy.org/math/get-ready-courses>

Khan Academy has a series of courses from Grade 3 to AP Statistics to help get students ready for their next math course. Complete with articles, videos, and exercise sets, this free and high-quality program can help ensure your child is ready for the upcoming school year!

Quantile® Summer Math Challenge

<https://hub.lexile.com/summer-math-challenge>

Help your child practice math skills taught in grades 1-8 with this free program! The Quantile® Summer Math Challenge is a six-week program full of daily activities that are designed to help prevent summer learning loss. The typical student loses approximately 2.6 months of grade-level equivalency in math skills over the summer months each year. When you enroll your child, you'll get access to daily fun activities and resources designed for your child's grade and ability level. The 2021 Summer Math Challenge will begin on Monday, June 21.
